

EndoComplete

Complete solutions for endoscopy

Excellence, experience, identity and independence – these are the components of our competence

EndoComplete – Experts for Specialists

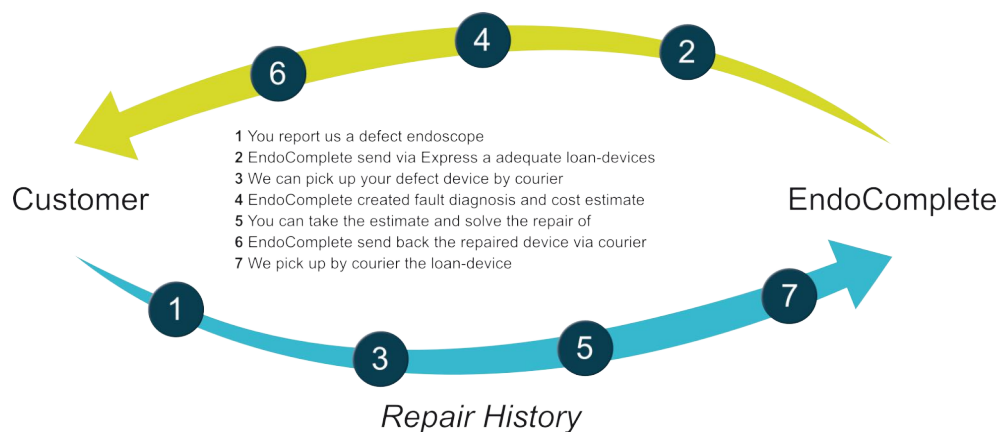

EndoComplete offers complete-endoscopic solutions, independent of any equipment manufacturer, encompassing repair and servicing, consultation and training and also financing, if required.

EndoComplete's most important resource is its motivated and skilled personnel, whose expertise and experience ensures the highest quality customer service and satisfaction.

We know that every day without a working endoscope causes examination - delay and reduced turnover, so we have devised smart solutions for our customers to ensure that diagnostic and therapy services will proceed without interruption, in the event of a damaged endoscope.

As soon as instruct us to repair an endoscope, EndoComplete will provide a comparable loan scope, free of charge, for the duration of the repair time.

You are thereby enabled - to immediately continue your patients care.

We take care of everything - for you.

EndoComplete's service is fast, efficient, of the highest quality standard and reasonably priced.

With ISO certification EN ISO 13485 from the German Institute for Standardization, our repair processes, which are independent of equipment manufacturers, legally conform to both the medicine products law and the medicine products operator standard.

We are a full-service provider for flexible endoscopy for customers in Europe and beyond. We seek always to provide you, the customer, with both the optimum solution and the fastest possible service.

Service - 24 hours/7 days a week

You can access us on-line 24/7
